ABOUT ME

Full-stack developer at the start of my professional career, with a portfolio of real, deployed projects: React front ends, REST APIs in Node.js and FastAPI, PostgreSQL databases, and a 15,000-line Windows desktop CAD application in C#. Ten years of freelance design give me a strong eye for UI and detail; technical drafting and an electronics degree give me an engineering mindset. I build with an AI pair programmer (Claude Code), review every change and can explain the code I ship. Seeking my first professional software developer role.

PROJECTS

Client & Project Tracker github.com/Gudagit/project-tracker
React 18, Vite, Node.js, Express 5, PostgreSQL, Prisma

- Full-stack app for tracking clients, project deadlines, status and payment.
- REST API with server-side validation and clear 400/404/409 errors; blocks deleting clients that still have projects.

Miami Beach Digital QR Menu Live demo | gudagit.github.io/restaurant-menu-app
JavaScript, HTML, CSS, PWA, no dependencies

- Mobile-first ordering menu: live search over 103 dishes, variants, extras, persistent cart and favourites.
- Lighthouse 100 Accessibility, 100 Best Practices, 100 SEO; Performance 92 mobile, 99 desktop; tested at 11 screen sizes.

KitchenCAD, Windows Desktop App github.com/Gudagit
C# (.NET, WinForms, GDI+), about 15,000 lines, no third-party libraries

- Parametric kitchen design tool: enter a dimension once and parts, hardware holes, drawings and machine programs update.
- Built a 3D viewer with exploded assembly view, a custom path tracer (BVH), nesting algorithm, and PDF, DXF and CNC export.

Crypto Predictor github.com/Gudagit/predictor-crypto-II
Python, FastAPI, pytest, React dashboard

- Data pipeline predicting 24-hour volatility; walk-forward validation shows a 14-18% edge over the base rate.
- Prediction Audit logs every forecast before the outcome and reports honestly where no signal exists.

HomeBuild Operations Platform (in progress)
React, FastAPI, SQLAlchemy, PostgreSQL, pytest

- Tracks properties, build stages, tasks, contractors, inspections and defects.

designstarla Portfolio Website starla-demo.vercel.app
React 18, React Router, EmailJS, Vercel

WORK EXPERIENCE

2013 - Present
Freelance Graphic and Logo Designer
Delivered brand identity projects for international clients on 99designs and DesignCrowd, independently, against briefs and deadlines.

04/2021 - 10/2023 | Siri Custom Carpentry
Shop Drawing Maker (Drafter)
Produced precise technical drawings from architectural plans and solved construction problems for custom cabinetry.

2020 - Present | Norman's Tavern, Soho Beach House
Server, Hospitality
High-volume, customer-facing teamwork and communication.
